The Geneva Series of professional hinges is able to accommodate 5/16" (8 mm) to 1/2" (12 mm) glass. A variety of six styles gives design flexibility, including three different Wall Mount and three different Glass-to-Glass types. Geneva hinges are self-centering and contain a Reversible 5° Pivot Pin (see below). In addition, Custom Pivot Pins are available to accommodate “off-angle” installations (see below). Made of solid brass with all moving parts (pins and springs) in stainless steel.

**FINISHES:**
- Chrome
- Satin Chrome
- Brushed Nickel
- Polished Nickel
- Satin Nickel
- Antique Brass
- Oil-Rubbed Bronze
- Antique Bronze
- Brass
- Satin Brass
- Ultra Brass
- Antique Copper
- Matte Brass
- Stainless Steel

**SPECIFICATIONS:**
- Glass Thickness: 5/16" (8 mm) to 1/2" (12 mm) Tempered Safety Glass
- Special Feature: Offers choice of Standard Model factory set at standard 0° closing position, or 5° Pre-Set Model for tighter closure into shower interior
- Construction: Solid Brass
- Hinge Swings: 90° in and 90° out
- Closing Type: Self-Centering when within 15° of closed position
- Cut-Out Required

**Includes:** Gaskets, Screws, and Glass Fabrication Dimensions

**STANDARD REVERSIBLE PIVOT PIN**
- Each Geneva hinge contains a Reversible Pivot Pin. One side of the Pin is marked at 90°. The opposite side of the Pin is marked 85°.
- Standard Geneva hinges come with the 90° side activated. Pre-Set Models come with the Pin pre-set for 85° (5° tighter closure into shower interior). The Pin can be rotated (not flipped upside down) to activate the other side.

**CUSTOM PIVOT PIN**
- Custom Pivot Pins are available to accommodate “off-angle” installations. As an example, you may encounter a wall that will not meet your door at 90°. If the standard 5° Pivot Pin contained in the hinge does not assist in closing the door to the position desired, you may specify the angle needed for a Custom Pivot Pin (up to 45°).

ADJUSTABLE GENEVA SERIES

The Adjustable Geneva Series has taken our popular Geneva Hinge to a new level. Adjustment to accommodate the desired angle (up to 90°) is done after the door is installed. Once the door is hung, simply loosen the Allen set screws and turn the door to the desired closed position. By merely tightening the Allen screws your door will self-center to the desired closing position. The door can swing 90° inward and 90° outward (adjusting angle from factory set position will reduce 90° swing in that direction). For doors pulling outwards only (using a clear door jamb), you can adjust the hinge to close 5° inside the shower area, thus having the door close snugly against the jamb.

FINISHES:

Most models are stocked in the finishes shown here, others are available on special order.

GENEVA PONY WALL MOUNT SERIES

These hinges can be used in place of the standard wall-to-glass hinges normally utilized when using wall mount hinges on a pony wall, and glass-to-glass hinges above them. The GEN280 model is for use with 180° applications, while the GEN245 is for use with 135° applications. Previously in this application the tile or marble had to be cut to allow the wall mount hinge to be recessed. That adjustment aligned the pivot points between both hinges to allow proper installation. Geneva Pony Wall Mount Hinges are modified with a shortened center block (containing only one centering spring) and a small back plate (with only two mounting holes). Each hinge has the same Reversible 5° Pivot Pin as our standard Geneva Hinge. **NOTE:** For 135° installations it is required that the face of the pony wall be at a 45° angle to the wall, and a 90° angle to the door plane (see diagram).

FINISHES:

Most models are stocked in the finishes shown here, others are available on special order.

C.R. LAURENCE COMPANY
**Pinnacle Series**

The Pinnacle Hinge is similar to our popular Geneva Series Hinge, but with one design change: Pinnacle has radius corners and beveled edges for a sleek appearance. Pinnacle Hinges accommodate 5/16" (8 mm) to 1/2" (12 mm) thick tempered safety glass, and are self-centering when within 15º of the closed position. Pinnacle Hinges are constructed of solid brass, and have stainless steel plunger tips, pins, and springs to ensure long service life and reliable door closure. The Pinnacle Hinge also contains the same Reversible 5º Pivot Pin featured in our Geneva, Cathedral, Roman, Ultimate, and Elite Series Hinges. A Custom Pivot Pin is also available for "off-angle" installations (see below).

**Specifications:**
- **Gloss Thickness:** 5/16" (8 mm) to 1/2" (12 mm) Tempered Safety Glass
- **Special Feature:** Wall Mount Hinges and 180º Glass-to-Glass Hinge offer a choice of a Standard Model, factory set at standard closing position (0º), or a 5º Pre-Set Model for tighter closure into shower interior.
- **Construction:** Solid Brass
- **Hinge Swings:** 90º in and 90º out
- **Closing Type:** Self-Centering when within 15º of closed position
- **Cut-Out Required**
- **Includes:** Gaskets, Screws, and Glass Fabrication Dimensions

ADJUSTABLE PINNACLE SERIES

SPECIFICATIONS:
Glass Thickness: 5/16" (8 mm) to 1/2" (12 mm) Tempered Safety Glass
Special Feature: Adjustable to any angle up to 90° without having to take door down
Construction: Solid Brass
Hinge Swings: 90° in and 90° out (all factory set position)
Closing Type: Self-Centering when within 15° of closed position
Cut-Out Required
Includes: Gaskets, Screws, and Glass Fabrication Dimensions
Note: Door glass width may require alteration from standard clearance deductions when adjusting angles. Call for details.

Adjustable Pinnacle Series Hinges take our popular Pinnacle Hinge to a new level. Adjustment to accommodate the desired angle (up to 90°) is done after the door is installed. Once the door is hung, simply loosen the Allen set screws and turn the door to the desired closed position. By merely tightening the Allen screws your door will self-center to the desired closed position. The door can swing 90° inward and also 90° outward (adjusting angle from factory set position will reduce 90° swing in that direction). For doors pulling outwards only (using a clear door jamb), you can adjust the hinge to close 5° inside the shower area, thus having the door close snugly against the jamb.

SOLID BRASS PULL HANDLES
BACK-TO-BACK AND SINGLE-SIDED, 3/4" (19 mm) DIAMETER

These Solid Brass Pull Handles offer a selection of Back-to-Back or Single-Sided styles, with a choice of an economical "No Washer" type, or the Traditional Style Pull with 1-1/4" (31.8 mm) diameter metal washers. The Back-to-Back Handle includes a pull for each side of the door, and is commonly used in frameless shower door applications. The Single-Sided, No Metal Washers Handle has a 1/8" (3 mm) protruding end cap, and is commonly used for bypassing cabinet and wardrobe doors. All Pull Handles are offered in a choice of 6" and 8" (152 and 203 mm) sizes, and are stocked in finishes to match most bathroom décors. Custom finishes are also available on special order.

**SPECIFICATIONS:**
- **Material:** 3/4" (19 mm) Diameter Solid Brass Rod; 1-1/4" (31.8 mm) Diameter Washers/Study Kit
- **Glass Thickness Range:** 1/4" (6 mm) to 1/2" (12 mm)

Single-Sided Knob

Our Cylinder Style Knob adds a simple elegance to a frameless shower enclosure. The sleek, cylindrical shape is functional without detracting from the beauty of an all glass door. The Plastic Sleeve Model is ideal for use on sliding bypass shower doors to protect the knob surface. Knob diameter is 3/4” (19 mm), and it stands 1-1/4” (31.8 mm) from the glass surface. The end cap for the Single-Sided Model stands only 5/32” (4 mm) from the glass surface. Stocked in 11 beautiful finishes, with custom finishes available on request.

---

**SOLID GLASS DOOR KNOB**

This beautifully styled, all clear Solid Glass Door Knob has numerous application possibilities. It can be used as a knob on an all-glass door, as a foot for a glass table base, or as a wardrobe hook on a glass panel mirror. Simply secure in place using our water clear UV70330 Ultraviolet Adhesive. The Knob has a large diameter of 2-3/8” (60 mm), a small diameter of 1-3/16” (30 mm), and stands 1-1/2” (38 mm) from the glass surface.

Material: Glass, Chrome Plated Brass

Glass Thickness Range: 1/4" (6 mm) to 1/2" (12 mm)

Hole Diameter Required: 3/8" (10 mm)

This Glass Knob provides a clean and transparent look, as it blends the Knob and door together for a see-through appearance. It has a chrome insert for added beauty. Knob diameter is 1-3/16" (30 mm), and it protrudes 1-11/16" (43 mm) from the glass.

CAT. NO. SDK410CR Back-to-Back Knob

KNOB LATCH

• Provides Positive Closure By Latching Door in Glass-to-Wall or Glass-to-Glass Installations
• Centers the Door in Out-of-Alignment Situations Caused By Various Jobsite Conditions

SPECIFICATIONS:

Material: Solid Brass

Available Finishes: Brass, Chrome, Satin Chrome (Matte), Gold Plated, Oil Rubbed Bronze, Polished Nickel, Brushed Nickel, White, and Polished Copper

Glass Thickness Range: 5/16" (8 mm) to 1/2" (12 mm)

Hole Diameter Required: 7/8" (22 mm)

The Knob Latch assists in latching and centering a door in either glass-to-wall or glass-to-glass installations. It is very helpful in job conditions where a slightly out of alignment situation exists, and positive closure to zero degrees is needed. An internal three-point ball bearing index mechanism keeps the Knob Latch from "free-spinning". The Knob Latch is operational from both sides of the door. It includes a Tapered Strike (180 Degree Model only) for glass-to-wall installations, and a J-Hook for glass-to-glass installations. J-Hook is adhered using our water clear UV70330 Ultraviolet Adhesive.

FINGER PULL KNOB
• Perfect for Use With Our BMNW Single-Sided Towel Bars Above

SPECIFICATIONS:
Material:
Solid Brass
Available Finishes:
Brass, Chrome, Brushed Nickel, and Oil Rubbed Bronze
Glass Thickness Range:
1/4" (6 mm) to 1/2" (12 mm)
Hole Diameter Required:
13/16" or 7/8" (20.6 mm or 22.2 mm)

NEW!

CAT. NO. FPK1

The NEW Finger Pull Knob is ideal for use with CRL Bypass Sliding Shower Door Systems. They allow for easy opening of the doors from inside the shower enclosure. The 1/4-20 threading of the Finger Pull Knob makes it compatible with most other CRL Towel Bars and Knobs, including our BMNW Series above. Stocked in our four most popular finishes. Custom finishes available upon demand.

NOTE: Due to hole size required, the FPK1 Finger Pull Knob cannot be retrofitted into Towel Bars that already have 1/2" diameter holes made in the glass.
SD Series Single-Sided Towel Bars

SPECIFICATIONS:
Material: 3/4" (19 mm) Diameter Brass Tubing

Our New Towel Bar/Knob Combinations allow the flexibility of design that appeals to many homeowners, designers, and architects. The Towel Bars are constructed of tubular brass, thus keeping lighter weight hardware installed on the door. The Knobs are constructed of solid brass, with a choice of CRL’s popular Contemporary or Traditional Styles. Decorative metal washers are included, with plastic washers to protect against glass-to-metal contact. Stocks in nine standard finishes, with custom finishes available upon request.

NOTE: Due to the wide variety of Towel Bars and Knobs that CRL stocks, it may be possible for you to construct the Towel Bar/Knob Combo you desire by purchasing separate component parts. In addition to the stock catalog numbers shown here, virtually all CRL Knobs will thread into our Towel Bars. Call our Frameless Shower Technical Sales Department for assistance.
GRAB BARS

- Mount to Wall of Shower Interior
- Now Also Available in 135 Degree Model, With or Without Basket

**SPECIFICATIONS:**
- Material:
  - 1-1/4” (31.8 mm) Diameter Stainless Steel (Chrome) or Brass Tubing
  - (All Other Finishes)
- Includes:
  - Cover Flanges and All Necessary Mounting Hardware

Custom Inline Enclosure
The NEW EZ-Adjust Shower Door Header Kit provides a safe and beautiful frameless shower installation by securing enclosures that do not reach the ceiling. Acting as a “crown” over the top of the glass, the EZ-Adjust Shower Door Header Kit is bracketed to each wall.

The EZ-Adjust System allows adjustability after installation in that the hinge (PPH06 and SRPPH06 only) can be moved left and right as desired. No drilling through the Header is required for an Adaptor Block if using Prima Hinge Model PPH06 or Senior Prima Hinge Model SRPPH06, due to a built-in adaptation to the hinges (see pages 132S and 134S).

Constructed of heavy aluminum alloy, the EZ-Adjust Header Kit is stocked in up to eight popular finishes.

A choice of 98” (2.49 m) and 144” (3.66 m) stock lengths allow the user to cut as desired. A Snap-in Filler Insert for the door pocket, along with Wall Mounting Brackets and Clear Glazing Vinyl round out the Kit. Other accessories that may be ordered separately are shown on page 203S.

**IMPORTANT NOTE:** Prima Hinge Model PPH06 and Senior Prima Hinge Model SRPPH06 can be used only with the EZ-Adjust Header System, due to a built-in adaptation to the hinges (see pages 132S and 134S). No drilling required in Header when using those hinges. If using other Top Mount Pivot Hinges with the EZ-Adjust Header System, an Adaptor Block must be ordered from page 203S, and drilling will be required through the Header to accommodate the Adaptor Block.

**EACH EZ-ADJUST HEADER KIT CONTAINS:**

- 1 – 98” (2.49 m) or 144” (3.66 m) Length of Header
- 1 – 36” (914 mm) Snap-In Filler Insert for Door Pocket
- 1 – Deluxe Wall Mount Bracket Kit (Two Brackets)
- 1 – Length of 5/16” (8 mm) and 3/8” (10 mm) Clear Vinyl

**98” (2.49 M) KIT**
